A TREATY OF PEACE

Kentucky Republicans and
Democrats Agree to Abide
By Assembly's Action.

RESTS WITH TAYLOR

Settlement Hinges on His
Approval, Which He With-
holds at Present.

Louisville, Ky., Feb. 6.—The peace conference held at the Galt house last night between several representatives of the Republican party and several representatives of the Democratic party resulted in the unanimous signing of an agreement embodying six specific positions, which promise a settlement of the party differences which have brought on the two state governments in Kentucky. This agreement is in substance as follows:

First.—That if the general assembly in its session shall adopt the resolution ratifying their recent action adopting the contested reports seating Gobel and Jackson, the contestees, W. S. Taylor and John Marshall, shall submit without further protest to the action of the assembly.

Second.—That all parties shall unite in an effort to bring about such a modification of the election law as will provide for non-partisan election boards and insure free and fair elections.

Third.—That the candidates shall remain in status quo until Monday, the general assembly meeting and adjourning from day to day until that time.

Fourth.—That nothing shall be done to hinder or prevent a joint session of the general assembly for taking action on the ratification resolution.

Fifth.—That the general assembly shall meet and adjourn from day to day until Tuesday without taking any action on the contested reports.

Sixth.—That the Republican officials and officers of the state guard shall have immunity from charges of treason, usurpation, or other crimes, or any other such offenses.

The agreement was signed by the following: Republicans—John Marshall, Judge John W. Barry, Gen. Dan Lindsay, L. E. Ebel, Dr. J. C. Wines and W. C. Fairleigh, C. T. Allard, Democrats—J. C. Blackman, J. C. W. Beckham, Sam J. Shaddock, Senator James B. McCreary, Phil Thompson, J. B. Keeney.

The agreement was not given out last night, as it was desired first to submit it to Governor Taylor for his signature. It was stated that by the Republicans present that Governor Taylor would agree to anything that all of them signed.

It was stated in the conference that the London session would be called off at once.

The conference began at 5 o'clock yesterday and lasted until 11 o'clock this morning, when a typewriter was sent for and the agreement was prepared and signed.

Until Monday, while the situation is in status quo, Governor Taylor will remain in possession of the executive buildings, while the Republicans will recognize him and the Democrats will recognize Governor Jackson as governor.

Following the conference, Governor Beckham at once took a train for Frankfort, Ky., and Governor Taylor remained in Louisville.

The course of events in the immediate future depends largely upon Governor Taylor. An important influence in shaping the Republican policy has been, no doubt, the lack of support from the national administration for Taylor since he assumed office. The latest manifestation of this feeling in Washington is the following telegram from Senator Duffie, which was in the hands of the Republicans before last night's meeting:

"Washington, Feb. 4, 1900.—Hon. W. S. Taylor, Frankfort, Ky.: The unanimous sentiment here is that you are wrong in preventing the legislature from meeting, and that you should submit the disputed questions to the civil courts. Federal assistance will be given you on your request so long as the legislature is in session or can be convened. If you will permit, The Democrats intend that if any violence occurs you shall be the aggressor. You will, by forcible resistance, alienate all who formerly sympathized with your cause. No assistance. Answer. "W. J. DUFFIE."

REMAINS AT COVINGTON.
Gobel's Body Lies In State at His Home.

Covington, Ky., Feb. 6.—The special Gobel funeral train arrived here at 8 o'clock this morning from Frankfort. It consisted of a baggage car with the casket and floral tributes, a coach for the pallbearers, judges of the appellate court, legislative committee members and others, and a Pullman with the relatives.

Those in the Pullman were: Arthur Gobel, of Cincinnati; Justus Gobel, wife and children, of Arizona; Mrs. Braumacker, of Ohio, sister of the deceased; Mr. and Mrs. Reynolds of Cincinnati; Mr. Reynolds is a brother-in-law of Justus Gobel. Mr. and Mrs. Charles McCard and other personal friends were also in the Pullman.

Although the train made no stops except at Lexington, yet there were groups at the stations along the way to see it even in the darkness of the winter night. The only subject of conversation along the route was the circumstances that are thought to have brought it about.

THE CAPITAL MUSS

Bobs Up In Evidence—Bick-
ford's Much Talked of
Letter Read.

Washington, Feb. 6.—The controversy over the election of Senator Clark of Montana before the senate committee on elections began today with another wrangle between attorneys on the respective sides over the letter intercepted in Mr. Campbell's office while it was being carried from Mr. Bickford's office by Ben Hill. Mr. Campbell presented the letter, asking as he did so, that it might be returned, as it might be important to have it in a suit in Montana.

To this request Mr. Foster took exception, saying that as the letter was not properly for the prosecution they had no right to its return. This brought Senator Edmunds to his feet with the declaration that the defense could only get the letter by process of law, "let which," he said, "we will be glad to accommodate them, in Montana or elsewhere."

Chairman Chandler cut the controversy short by announcing that he had the letter in his possession and would himself hold it for the present.

The letter was read. It is on paper containing the card of Walter M. Bickford, and is as follows:

"I have had a talk with Mr. War this morning and with Mr. Falk. When you next come out from the office, what his expenses would be and ask him to pay them. I have told him that I will pay them. "W. M. B."

The envelope was addressed "Jesse B. Root, Baltimore, Md. 1899—My Dear Root: I have had a talk with Mr. War this morning and with Mr. Falk. When you next come out from the office, what his expenses would be and ask him to pay them. I have told him that I will pay them. "W. M. B."

The first witness of the day was State Senator Phillips of Montana county. Mont. (Republican) who had voted for Mr. Clark. He said he had known Mr. Clark for thirty years, and that, in a talk with him, he had told him that he was not able to produce it.

Mr. Phillips admitted having talked with Mr. Clark, but he said he did not know what he had said to him. He said he had not been able to produce it.

Clark contradicted the testimony of Mr. Phillips to the effect that he had not been able to produce it. He said he had been offered \$10,000 for his consideration for his vote. Mr. Clark said he had not been offered \$10,000 for his vote, but he had been offered \$10,000 for his vote.

FEEDING ON RUMORS

British Public Kept on the
Ragged Edge of
Anxiety.

NO NEWS OF BULLER

It Is Generally Believed That
His Forces Are Now
Fighting.

London, Feb. 6.—This hoping, fearing, doubting nation remains at the mercy of every wild rumor.

The impression that Gen. Buller's forces are fighting will not die out, in spite of the continuous observations of the war office that it has no news to confirm that belief.

From Cape Town, under today's date, comes the statement that up to this morning nothing has been heard of the advance of the Boers since the 1st of January. The Boers are now in a position to take the Tugela river, while Field Marshal Lord Roberts, in a dispatch dated Monday, Feb. 5, reports no change in the situation.

In view of the latter's dispatch, it seems hard to credit the circumstantial reports of the engagement of Gen. Buller's troops. The common sense view now almost inclined toward the decision that these are due to the wish being gratified by the public to hear of such a basis is utterly futile.

The complete silence from the front and home may be significant. As the wiseaver aver, but it more probably represents that period of preparation which precedes the important movement.

While the news of sharp fighting in the neighborhood of Colenso can be fairly expected within a few days, it is not likely that it will assume greater importance than the Boers' reply to President Kruger and Steyn creates an excellent impression here.

From Kimberley and Mafeking there is nothing new, so it can be presumed that the intermittent bombardment of these places continues.

BRITISH CONFIDENCE GROWS.
Faith of Ultimate Victory Strong in the English.

New York, Feb. 6.—While London has not received one word of news from Natal, the feeling of confidence continues and grows stronger. No one seems to doubt that Gen. Buller is making a third attempt to relieve Ladysmith. So sure does the English public feel that Gen. Buller will in the end triumph, that even if Gen. Buller is killed, it is not supposed that he will be so much outcried as followed his previous failures, for any heavy loss inflicted on the Boers is a British gain.

The London morning papers devote much space to the report from Spicard's camp that the Boers are now in a position to take the Tugela river, while Field Marshal Lord Roberts, in a dispatch dated Monday, Feb. 5, reports no change in the situation.

There is no news to show that Gen. Buller's forces are fighting will not die out, in spite of the continuous observations of the war office that it has no news to confirm that belief.

CRUEL AND UNJUST

Says That the Unholy War
Was Started By Million-
aire Miners.

New York, Feb. 6.—Representative Lester, of Georgia, has received a letter from T. B. Hodges, American living at Johannesburg, South African republic, who suggests that congress should side with the Boers, even to the extent of declaring war against Great Britain. The letter says in part:

"I send you through this mail a book called 'A Century of Wrong,' written by the Transvaal secretary of state, Mr. Itz, which I beg you to read carefully, as it is a true and concise statement of the condition of this country since its first settlement by the Boers. No doubt congress will take some steps relative to Transvaal affairs after the Christmas holidays, and I beg of you, as one who knows the true state of affairs, to stand by this country with all your ability and strength, even to a declaration of war against Great Britain."

Of all the cruel, unjust and damnable wars forced upon the noble Boer race, by vowing to be persecuted by the Boers, and lacerated by Sir Alfred Milner, Joseph Chamberlain and Cecil Rhodes, this is the most terrible and unholy.

"Think of our struggle for independence against these same Britishers, and remember that they are using the same cowardly tactics against our country, and as a lover of freedom and justice and fair play I know you will stand by right against them."

"If the United States can do nothing to help this country, it is absolute, entire neutrality."

From Kimberley and Mafeking there is nothing new, so it can be presumed that the intermittent bombardment of these places continues.

MURDER AT BEMIDJI

Bennie Moore Shot Dead In
the Olympic Theater
Bar Room.

A DRUNKEN QUARREL

Shooting Was Done By Russ
Whipple, a Solway Saloon
Keeper.

Bemidji, Minn., Feb. 6.—(Special to The Herald).—A cold-blooded murder, to all appearances took place at the Olympic theater, in this city, last night at 11 o'clock, during the opening performance of the new show house.

The house was crowded from gallery to pit, and the bar room was full of patrons, who Russell L. Whipple, commonly known as Russ Whipple, a saloon keeper of Solway, shot and killed Bennie Moore, a lumberjack.

The two had had some slight altercation in the bar room about half an hour before the shooting took place, and Whipple went out and returned, evidently looking in trouble. Both men were under the influence of liquor, and Whipple was drunk and angry.

Whipple at once pulled a revolver out of his overcoat side pocket and shot Moore in the side underneath his right arm. Moore staggered out of the bar into the theater room and was taken to the theater by the Markham hotel, where he shortly expired.

His body was then carried to the undertaker's, where an inquest was held today by Deputy Coroner Newman, the jury finding that the deceased came to his death at the hands of Russell J. Whipple. Dr. Newman subsequently performed a post-mortem examination of the body.

From all that can be learned at this time, the killing was premeditated. Whipple is a big fellow, standing 6 feet 4 inches in his stocking feet, and weighing 250 pounds, while Moore was a boyish-looking fellow, weighing about 150 pounds.

After the shooting Whipple walked out of the building with two friends and went to the Markham hotel, where he was arrested and taken to the county jail. His preliminary examination was held today by Deputy Coroner Newman, the jury finding that the deceased came to his death at the hands of Russell J. Whipple. Dr. Newman subsequently performed a post-mortem examination of the body.

New Shirt Waists for Spring of 1900.....

Some few advance styles already here, with all the new Spring features, such as new yokes, sleeves and collars. Some in stripes and figures of Blue and White, Pink and White, Pink and Gray, Royal Blue and White, Black and Gray, and some decidedly new Waists of Mercerized Silk of Helio and Blue Body Grounds with Persian effect; some made of Colored Grounds with yoke of White Embroidery and Lace; some perfectly plain.

White Shirt Waists of Fine Lawn at \$1, \$1.25, \$1.50 and more.

Many women folks will appreciate this early opportunity at Shirt Waist buying because of first choice of styles.

Printed and Woven Cotton Dress Stuffs.

Not another showing like this one at the head of the lakes. Almost every conceivable idea in high class Woven Cotton is represented here—and our sales are far surpassing any previous season's efforts. Possibly because there are more and prettier to choose from, or possibly because we are showing complete and large assortments earlier—and then again you might remember the worry and trouble you had over dressmakers. Early preparations does away with all this. Mousseline de soi and Peau de soie are even more charming, both in color and design, and the mercerized Organdia Carreaux with its silky sheen and wonderfully printed baby flowers are delightful beyond description. David and John Anderson Gingham are as fine as last year's. It's going to be a Gingham year you know. Mercerized Cotton Dress Robes with enough embroidery and enough plain for a dress. Novelty Dress Robes of silk and cotton—startling and wonderfully effective. Embroidered Swiss, more designs and prettier. All going as fast as the other, and earlier than last year. The choice is as good now as it will be; perhaps better. Here's a goodly list, not all—but enough to give you an idea.

Imported Oxfords.

These goods were imported by us, and will not be found elsewhere in the city. Divided into several lines as follows:

Oxfords Line No. 1—

In broken stripe effect, 22 inches wide—Price, the yard, 65c.

Oxfords Line No. 2—

Why is Electric Light Best?

Because it is Healthy, Clean, Pure and Brilliant.

HEALTHY! It has no odor. Professor Thomson states one cubic foot of gas consumes much oxygen as four adults.

CLEAN! It causes no discolorations of furnishings and decorations in homes.

SAFE! As electric bell work, no danger of suffocation.

CHEAP! By using a little care in turning off lights when not in use it is cheaper than any other illuminant.

A Great Business...

It is a certain indication of leadership. Especially in those features which interest the public most directly—quality and price—does it indicate advantage to the buyer. This Piano business is an illustration. It is the largest in the West and it has been built up by giving the people the best Pianos cash would buy at just as small prices as possible. Then we throw in our guarantee as a safeguard to protect customers, even from the possible slip of the manufacturer.

TWO CENTS.

ALLEGED DALY PLOT

Clark's Attorneys Claim They Can Show a Cabal Against Him.

EVERYTHING DENIED

Whiteside's Story Contradicted--Bickford Explains McLaughlin Land Deal.

Washington, Feb. 7.—The first witness called before the senate committee on privileges and elections today, in its investigation of Senator Clark of Montana, was G. E. McFirth, of the civil service commission, located at Chicago. He was in 1892 and 1893 editor of a newspaper in Butte, Mont., which, he said, supported Mr. Daly. He was also secretary of the Democratic state central committee.

An attempt was made by counsel for the defense to investigate the Montana senatorial election of 1893, but they were checked.

McFirth's name was read by Senator

Faulkner and Mr. Foster showing that they expected to prove by Mr. McGrath that, in 1883, he had been in a caucus of Daly's friends, and that Daly had then suggested the defeat of Mr. Clark by getting some one to go to Clark for money and, failing to accomplish this purpose, to put up the money himself for an "exposure." This, it was claimed by counsel, was the scheme carried out by Mr. Daly through Whiteside, in 1891.

The point was argued at length by counsel on both sides, and the committee went into executive session to decide it, McGrath being temporarily withdrawn from the stand.

man Chandler announced that the committee had decided to exclude for the present the testimony referring to the senatorial campaign of 1896.

He said in contradiction of Whiteside that it was not true that he had been "fixed" by Mr. Steele, and he denounced all of Rector's stories concerning him.

Walter A. Bickford was next called. He had been one of Clark's active agents in the senatorial campaign of 1898-9, and his name, next to that of Wellcome, has been most frequently mentioned by the prosecution. Mr. Bickford said that he was at present a resident of Butte, but that he had formerly lived at Missoula, where he was a law partner of Mr. Stiff's, speaker of the house of representatives, and a prominent witness for the prosecution in the Clark case.

Bickford was first asked concerning his engagement of Stiff to examine the title of the property owned by H. W. McLaughlin, of the Montana legislature, which property was afterward purchased by Mr. Clark through Bickford. The latter said it was an ordinary business transaction, Stiff being em-

employed because it was inconvenient for him (the witness) to perform the service himself.

Bickford said that a subsequent time he had talked with Stiff concerning the latter's candidacy for the house speakership. He had never, however, at any of these conversations told Stiff that

there was an understanding that McLaughlin should vote for Clark for the senate. He had at one time, prior to the McLaughlin transaction, talked with Stiff concerning the senatorial election. He had broached the subject and inquired of Stiff how he felt on the subject.

"I asked him how he felt," said Bickford, "and he replied that he knew of no reason why he could not vote for Clark if he should be the nominee of the Democratic legislative caucus.

"Stiff told me that he had aspirations for the district judgeship of that district, and said that he wanted to see about this caucus as a member of the

The witness declared that he had suggested to Stiff that if he would support Clark for the senate the latter would appoint him as attorney to represent some of his interests.

The McLaughlin transaction was explained at length, the witness explaining that the timber land owned by McLaughlin was especially favorably located, and that Clark, being a large user of timber, had found it necessary to establish mills.

year. Everything had been prepared for the coup, but at the last moment representations to her that such a course would produce serious disturbances in the south has caused her to temporarily abandon her intention.

There is much anxiety in official circles regarding the empress dowager's

next move. It is thought that she will let things remain as at present until she is certain as to the attitude the emperor's party is likely to assume. There is room to believe that the emperor's party is strong enough to give serious trouble, no matter what action the empress dowager takes.

JOHNSON GETS WINSTON.

CONFIDENCE

is capital; is the basis of all agreements; is truth personified. When one has confidence in anything the battle is half won, but lack of it imperils success from the beginning. It is but natural and right that religious teachers should inspire confidence. If they cannot be trusted and believed in, who can be? It is with this thought that the following paragraph is given to our readers from a clergyman well and favorably known:

Ashaway, R. I., Feb. 25, 1899.
It is to me a duty as well as a pleasure to acknowledge that Warner's Safe Cure has, under God, been the means of preserving my life. Not only so, but other members of my family have been greatly benefited by a use of the same remedy, and scores of men and women of my acquaintance have told me that they have been cured in like manner by a use of this marvelous medicine. It seems to act beneficially when all other remedies fail. I heartily endorse and recommend its use to all sufferers in need of a medicine. This testimonial is sent unhesitatingly and in the only hope that it will do good.

MORRIS SPOKE.

Speech on the Constitutional Feature of the Philippine Question.

Washington, Feb. 7.—Judge Morris was given one hour late yesterday afternoon to discuss the Philippine question. In opening his speech he said that he did not purpose to discuss the commercial side of the question of annexation, but the constitutional questions involved.

"The right of the acquisition of territory," said Judge Morris, "has been admitted always. The question of the policy of our recent acquisitions it is too late to discuss. In my opinion we could not have acted otherwise than we did. Had we done otherwise we would have been the subject of denunciation on the other side that we abandoned the Philippines to their oppressors. Immediately upon exchange of ratifications and the payment of funds called for, that territory became ours."

Judge Morris then charged that those who have opposed the retention of the islands and have in that way supported the insurrection in the Philippines are pursuing a course that is little short of treason. Had he been in the Philippines, he would have said: "The islands are ours and there is but one thing to do—support the government and the flag of our country."

He lauded the administration for its part in the acquisition of the islands, but he said that the administration had been long after its detractors and dead and forgotten or else spoken of with derision and abuse.

In a discussion of what is to be done with the Philippines, he said our first duty was to establish peace and order by suppressing the insurrection. He said he should not establish a protectorate over the Philippines, but if we are to have any responsibility we should have full power.

"Whoever says flag boats," he said, "shows our sovereignty, our power and our protection."

"I will be dead," continued Mr. Morris, "if the time comes when we can retain only enough land to maintain our military interests and give them absolute independence, but the business in hand now is to establish peace and order."

MAY MAKE A TENDER

This Government May Offer Its Friendly Offices In Transvaal War.

UNDER HAGUE TREATY

It Is Held That This May Be Done With Perfect Propriety.

New York, Feb. 7.—A special to the Times from Washington says: It is learned that under the terms of the Hague treaty, which has just been ratified by the senate, an effort will be made before long to exert such offices as may be properly extended to the belligerents to bring about a termination of the war in South Africa.

Before this treaty was adopted it was maintained that the United States could not, without exposing this government to the suspicion of unfriendly motives, venture to suggest the good offices to both parties to the war. Even now there is some doubt about declaring even with the best of intentions, that the Transvaal is or is not a vassal state, but it is beginning to be seen that the sympathy for the Boers is well spread and increasing and it may not long be wise to refrain from making a movement to save our South African friends from the ravages of the war.

The attitude of Great Britain towards the United States during the war with Spain is not a pleasant memory to the Boers, and it is a strong feeling to let the war go on and settle itself in its own way, but the Boers are not so strong as it is on the Democratic side of the Atlantic. Commons Rejected Amendment to Reply to Queen's Address.

London, Feb. 7.—The house of commons last night rejected Lord Edmund Russell's amendment to the address in reply to the speech from the throne by 252 against the amendment to 129 in its favor.

TO PLAN A DEFENSE.

Railroads Will Oppose Revision of Minnesota Rates.

St. Paul, Feb. 7.—The railroads interested in the transportation of grain and other products from the southwestern part of the state and Iowa to the northwestern part of the state are evidently getting together for the purpose of presenting a unanimous front to the railroad and warehouse commission.

The first meeting for this purpose was held at the office of Vice President and General Traffic Manager J. T. Clarke of the Omaha road yesterday.

Early last week the Minnesota railroad commission sent copies of a resolution passed by it to all the railroads in the business of the territory named, informing the various lines, in effect, that an investigation was to be commenced concerning the freight rates in effect in the territory mentioned.

It was pointed out by the railroads that the rates from the southwestern part of the state to the Twin Cities were considerably higher than rates from the northwestern part, although the distance of haul is about the same. The shippers in the southwestern portion of Minnesota claimed they were discriminated against, not only on grain rates, but on other commodities as well.

At yesterday's meeting the officials made a general comparison of rates obtaining from the southwestern part of the state to the Twin Cities with those from the northwestern portion, with a view of basing their line of defense.

ROCKEFELLER GOT TIRED.

Resigned Presidency of the Standard Oil Company.

Chicago, Feb. 7.—A special to the Record from Cleveland, Ohio, says: John D. Rockefeller is not the president of the Standard Oil company of Ohio. This is the parent company of all the widespread Standard Oil interests.

Rockefeller resigned last October, but the affair was kept secret until now. Vice President Gregory of New York, Rockefeller, it is stated, has been asked to so many examinations by the various legislative committees and anti-trust proceedings that he is forced to resign.

She proclaims so that every woman can hear, that Wine of Cardui does what the testimonials printed say it will do. On the strength of a good woman's letter she secured Wine of Cardui, and the result is quickly told. She was completely cured and now gives unstinted praise to the medicine that has made her well. If every woman who reads her statement printed to-day would follow her advice, and take this simple vegetable remedy for woman's ills, a new epoch would come to the womanhood of this city. Suffering women would get relief, lone husbands and wives would know the joy of parenthood, those terrible afflictions, falling of the womb, whites and painful menstruation, would disappear, and every home to which the great medicine went would be happier. Mrs. Eastwood's experience shows you the way to get speedy, effectual relief. Wine of Cardui will build you up so you can enjoy life as long as nature intended you to live.

I saw some strong testimonials of Wine of Cardui when I was in bed sick, and my husband got me a bottle. I was in bad shape and had spent over \$200.00 for treatment. Wine of Cardui has helped me so much I feel better than I have for a year. I can do my work without difficulty. I feel very grateful for a medicine that will do so much for suffering women.

CONDENSED DISPATCHES.

A dual track meet between the University of Chicago and Wisconsin will be held at Madison, May 25. This meet was arranged for yesterday at a conference between Manager Fisher of Wisconsin and D. Stagg, of Chicago, at Chicago. One of the conditions is that in 1901 a dual meet between the two universities shall be held on Chicago grounds.

Mr. Jones, J. Morgan, Jr., vice president of the Morgan Lithographing company, and widely known in theatrical circles, is dead at his home in Cleveland. Mr. Morgan had suffered from a long illness. He was 25 years of age.

The attitude of Great Britain towards the United States during the war with Spain is not a pleasant memory to the Boers, and it is a strong feeling to let the war go on and settle itself in its own way, but the Boers are not so strong as it is on the Democratic side of the Atlantic.

Arcadian Mine Officials Released—Pioneer Co.'s Exploration of Breitung.

Thoughton-Superintendent Edgar W. Kidwell, of the Arcadian mine, Master Mechanic Wethered, John Kirkham, mining engineer and Supply Clerk, have been released by the management. Their successors have not yet been appointed and General Manager Leopold had nothing to say about the matter before his departure for Chicago. The change has been expected in the copper country.

It is understood that Calumet parties are now endeavoring to secure from the government the control of the old Fort Wilkins property at Copper Harbor for summer resort property. The property is most beautifully located on a strip of land between Copper Harbor and Lake Fannie Bay, and the site is an ideal one for the purposes of those who are seeking to purchase are said to have in mind.

ONE CENT ADVANCE

Wheat Started Out Firm and Made a Further Gain During Session.

THE CABLES HIGHER

Owing to Fear of Delay in Shipments from the Argentine.

Duluth Board of Trade, Feb. 7.—The wheat market started out firm this morning, the cables being higher and a rail wave being predicted throughout the West. The advance at Liverpool was ascribed to four that the wheat shipment from the Argentine Republic will be delayed on account of the plague, and on this account shares at Chicago covered the day and closed firm. The 800,000 option showed an advance over yesterday of 1/2 cent. OMAHA'S NEW TRAIN

The Finest Service Duluth
Has Ever Had Is
Inaugurated.

PALACES ON WHEELS
Description of the Five Cars
Composing the Magni-
ficent Train.

The Northwestern line has decided to give Duluth and the head of the lakes and intermediate Northern Wisconsin territory a train service to Chicago that will be second to none in the country. Beginning Tuesday, Feb. 6, an entirely new train was put on for through service between Duluth, Superior and Chicago. It consists of five cars and an engine of the most modern and comfortable type, especially designed for high speed and safety in travel. The cars are all fresh from the Pullman shops and the train, just as it stands, cost a comfortable fortune, and is fit for a king. That's what it was built for—American kings and queens.

The equipment of this train consists of a combination observation, cafe and lounge chair car, 11-section drawing room sleeping car, reclining chair car, with chairs that recline, combination first and second class day coach and combination baggage, express and mail car.

The train is well ventilated, the vestibule hallways being carpeted with rubber strips, is brilliantly lighted with Pullman gas lamps and steam heated. Pullman window screens and the solid vestibules with non-telescoping double doors, the dust and draughts escape as surely as the country keeps out Chinese immigrants.

The combination observation and lounge chair car was especially designed by the Northwestern line. The observation end of this car is like the interior of a mansion, eight large plate glass windows in the rear end and on both sides of the observation room, furnishing light that makes the room a most pleasant place in which to sit and read or smoke. But the high seat is not the attraction of this drawing room on wheels. The inside is San Jacinto mahogany, while the dome is done in the trade mark, maroon and old gold color scheme affected by the road in the decoration of its passenger cars.

This room is provided with fourteen large and small easy chairs upholstered with leather of a color corresponding to the general tone of the room. These chairs are movable and can be lined up against the observation end on the side windows, or placed anywhere one wishes to place them. The floor is richly carpeted and the whole room is as convenient and comfortable as a club lounge room. The rear end of this room is a neat desk with writing materials of all kinds and the latest illustrated newspapers and a comfortable place for the thorough enjoyment of literature and a cigar could scarcely be conceived.

In the night time this room is lighted with six Pintch gas lights of four burners each. In the front of the room, separated by posts from the main room, four double seats furnish room for eight people to sit and talk or while away the hours as they see fit.

The middle of the car is occupied by an elegant buffet, independent of the kitchen. The kitchen is thoroughly up-to-date in all its appliances and while complete it is really a first-class room in which course dinners or light refreshments can be prepared with as much rapidity and style as in the hotel of the East. The kitchen fire is controlled by gas carried in a main line underneath the car, and the safe section occupies the front end of the car. This section is the most modern in every particular, and will seat eighteen persons at the table, there being three large tables seating four each, and three small tables seating two each.

There are triple mirrors in the sides of the car between each table, and the room is flooded with sunlight in the daytime by large windows, giving it that most desirable of attributes for a dining room—a good strong light. The small oval windows have a pane of beautiful stained glass. In the night time the light is furnished by three large Pintch gas globes, containing four burners each.

The outside of this car is very attractive, the trade mark color scheme of the company being here used to good effect, the solid body of the car being done in green, the trimmings in yellow, giving the car at once a neat and attractive appearance.

The trucks of this car are of the 6-wheel pattern, the wheels being made of rubber, thus insuring absence of much noise in running and consequent ease and comfort inside of the car.

The 11-section drawing room sleeper is one of the most luxurious sleeping cars ever built. It is arranged in the empire dome style, finished inside with San Jacinto mahogany and is brilliantly illuminated with Pintch gas lights, in the introduction of which the Northwestern line was the pioneer road, blazing the way that others have followed.

By daytime the interior of the car, most inviting, light being furnished by large plate windows, letting in the sunlight in pleasant profusion, and if too strong, it may be screened by rich tapestry curtains. The seats are upholstered in a subdued tone of royal blue plush and were built with a view to comfort in riding. There is no smoking room in this sleeping car and the toilet room for men, while somewhat smaller than the 11-section sleeping cars, is quite roomy and the space saved has been added to that portion of the car set apart for the women.

The new chair car will be brilliantly lighted at night with seven Pintch gas lights, containing four jets each. The bright light and convenient angles at

which the reclining chairs can be placed will make the chair car an exceedingly pleasant place in which to read. The car has fifty-two single seats in double rows up and down the length of the car on each side of the center aisle. They are upholstered in red plush, and were especially designed with a view of giving as much comfort as possible. In addition there is a divan seat in the front end of the car for two, making the total seating capacity of the car fifty-four. The seats are provided with an ingeniously arranged foot rest that slides under the seat in front when it is in use, and when in use can be pulled out and held at a comfortable angle. The interior of the car is finished in San Jacinto mahogany, and the dome is done in rich olive green, with old gold trimmings. This combination of the color scheme and the rich mahogany finish, gives the interior of the car a magnificent appearance.

The combination day coach is one of the handsomest in service on any road, and is fully in keeping with the rest of the train. The car is divided into a first-class section in the rear and a smoking room in the front end, for use of other coach and chair car passengers. The combination baggage, express and mail car directly behind the engine, is strongly built for the purpose for which it was intended, and in exterior appearance, compares favorably with the rest of the train. As a whole, this is one of the finest trains ever put in service on any road in the country, and will be greatly appreciated by the people at the head of the lakes and throughout the length of the line in Wisconsin.

There will be two trains similarly equipped, and in service each night, one leaving Duluth and Superior for Chicago and the other leaving Chicago for Superior and Duluth. The observation cafe car will be at the rear end of the train; the baggage and smoking sections will be at the front end, and the observation car will be at the rear end of the train.

be open only to passengers occupying the sleeping car of the country trains having no better equipment, called limited, and restricted to certain passengers, run only on certain days of the week, but these trains will run every day in the week and carry all classes of passengers.

The train which went out from Duluth last evening arrived here from Chicago yesterday afternoon, and with it came a party of guests of the road, including those of the Chicago & North Western, general superintendent of the road, T. W. Fessenden, general passenger agent, C. W. Whitcomb, superintendent of the Northern division, A. W. Shattuck, superintendent of the dining service, H. L. Preston, superintendent of car building, and George M. Smith, general agent at Duluth. A number of newspaper men also came up on the train.

After the arrival of the train, and until it left for Chicago, it was inspected by a large number of Duluth people, and expressions of admiration were heard on all sides.

THE PRO-BOER MEETING.
Committee Completes Arrangements
For Friday's Meeting.

The committee for the mass meeting, to be held in this city on Friday night to express sympathy with the Boers in their struggle to maintain their independence, met last evening and completed the details. The meeting will be held at the Armory, and the address of the evening will be delivered by Hon. M. V. Cannon, of Chicago. There will probably be two other speakers from outside the city, a large number of citizens will make remarks. The Duluth City band will accompany music during the evening, and some pieces of music will be played. The committee anticipates a very large attendance, and says the speeches will give a very good idea of the situation of affairs in the conflict now being waged in South Africa.

The Curling Scores.
There were four games of curling at the club last evening and the results were as follows:

AMUSEMENTS.
"A CONTENTED WOMAN."
Next Saturday afternoon and evening the people of Duluth will see another Hoyt play, "A Contented Woman."

The story is said to be an interesting one, and is founded upon the law recently passed in some of the far Western states, giving women the right to vote and allowing them to hold office. The scenes are laid in Denver, and the scenery used in the production will be the same as used at Hoyt's theater, New York, and is pronounced the most extravagant ever seen in comedy. It is pretty well known that Mr. Hoyt never has a poor cast, and in "A Contented Woman" he has secured the best talent possible, which, no doubt, has made "A Contented Woman" the most successful of all the bright comedies he has turned out.

Commissioner Kugler Tells
County Attorney Phelps
What His Place Is.

There was a little jar yesterday afternoon at the meeting of the board of county commissioners between County Attorney Phelps and Commissioner Kugler, in the course of which the commissioner gave the county attorney to understand that he was the legal advisor of the board and not a member of it, and that he did not believe it was proper for him to take part in discussions in which legal questions were not involved.

When the report of the superintendent of roads was read and after other recommendations one to the effect that the Knife River road, in the town of Duluth, which is in Commissioner Kugler's district, should be improved. The discussion of the report went along smoothly, and several roads and bridges were ordered repaired.

When the Knife River road came up the proceedings grew a trifle more lively. The board had levied \$2500 for this road, and Commissioner Kugler moved to appropriate a portion of that sum for needed improvements on the road. He said that it was a divan seat in the front end of the car for two, making the total seating capacity of the car fifty-four. The seats are provided with an ingeniously arranged foot rest that slides under the seat in front when it is in use, and when in use can be pulled out and held at a comfortable angle. A RUPTURE AT HAND

Over the Sending of Italian Troops to Garrisons in Egypt.

New York, Feb. 8.—A dispatch to the World from France says:

France and England are at the door of a serious disagreement. If the disagreement comes it probably will be over the Egyptian question.

The Havas News agency distributes an official denial of the statement made in several newspapers that the departure from Paris of Sir Edmund J. Monson, the British ambassador to France, signifies strained relations between France and England, but the official denial is not taken seriously. The conservative authorities regard a rupture between the two countries inevitable.

When M. Delcasse, the French foreign minister, and Baron Monson failed to understand each other in regard to the sending of Italian troops to Egypt, the British ambassador received instructions to go to Rome and there to hold up the hands of Baron Curie in helping to carry out his orders. It is significant that M. Delcasse and M. Onslow, the Russian ambassador, have been closeted daily during the last few days.

Conferences sometimes lasting two hours. So it is believed that Russia's arrangement with Persia, which was with France's approval after the possibility of British interference had been discussed and discussed.

"I was suffering with what the doctor called chronic indigestion, torpid liver

and vertigo," says Mrs. Martha E. Barham, of Newville, Prince George Co., Va.

"My symptoms were giddiness in the head, pains in my chest and an uneasy feeling all over."

"I also had female weakness. I was all run down, and could not do any work without suffering from nervous attacks, so I wrote to you."

"You advised me to use Dr. Pierce's Golden Medical Discovery and I used five bottles of each. I gained in health and strength. When I commenced to use the medicine I weighed only 112 pounds, now I weigh 140. My husband and friends all thought that I would die, but to-day I am a well woman."

"Dr. Barham's experience is not singular. Thousands have given similarly strong and convincing testimony. There are no other medicines in the world that have such a long and continuous record of cures."

"There are no other medicines 'just as good' or 'just the same' as Dr. Pierce's. Like all valuable things, these medicines are sometimes imitated. Don't be imposed upon. See that you get what you ask for."

"If you have any doubt as to the nature of your ailment write fully, giving your symptoms, to Dr. R. V. Pierce, chief consulting physician, 'Lancet's' Hotel and Surgical Institute, Buffalo, N. Y. He will consider your case carefully, and will tell you, absolutely free of charge, what to do to get well."

CONDENSED DISPATCHES.

Under orders from the officials of the American Sugar Refining company the Spreckels railway at Philadelphia has closed, throwing out of employment 1000 men.

The house committee on public lands voted yesterday a bill by Representative D. C. Hooper, of New York, which would allow an additional homestead to one who has lost his homestead through a railroad right-of-way.

RIVER PIRATES BOLD

Chinese Outlaws Make an Attack on a British War Vessel.

Vancouver, B. C., Feb. 8.—The steamer Empress of China arrived today from Yokohama bringing the following advices:

The total number of cases of plague in Hong Kong in 1899 were 1436 and the deaths 1428.

The British torpedo boat destroyer Taced went ashore on the West river while chasing Chinese pirates and when the steamer went ashore the pirates opened fire upon her. One boat was killed. It is not known how many pirates were killed. Piracy is more than ever a menace to commerce.

Dec. 31 the steam launch Esang, while towing a passenger boat was seized near Kanchow. The pirates escaped, although pursued by the British steamer. The notorious pirate chief, Poo Chan Hoi, with 2000 followers, is resisting the mandarins and they dare not attack him.

At Nanchang, Jan. 14, eighteen prisoners on board the American transport Albatross escaped from the ship during a religious service which was being held for their moral improvement. The prisoners were captured by the Japanese police at a village thirty miles from Nanchang.

OTIS TO BE RELIEVED

Will Be Ordered Home at His Own Request For Rest.

A NEW ARRANGEMENT

Commission Is to Have Plenary Powers Under the War Department.

New York, Feb. 8.—A special to the Herald from Washington says: Maj. Gen. Elwell S. Otis will be detached from duty as commander general of the Philippines and commander of the department of the Pacific immediately after the arrival of the new Philippine commission and ordered to return to the United States. This action will be in compliance with the wishes of Gen. Otis, who has informed the war department that he is in need of a respite. The president believes Gen. Otis can be relieved after the arrival of the commission at Manila, which will occur late in April or early in May, without detriment to the interests of the government.

Gen. Otis will be succeeded by the senior officer in the islands, probably Maj. Gen. Arthur MacArthur, who will be subordinate to the new commission, which will possess plenary powers and will be responsible to the war department.

Granting such extensive authority to the new commission and its assignment to duty under the war department marks an important departure in the policy of the administration. The decision to place the Taft commission under the war department means that the archipelago is now considered domestic territory.

For the suppression of organized resistance on the part of the natives, the archipelago will be divided into four military departments.

"Housework is hard work without Gold Dust"

Care of Lamps

Gold Dust Washing Powder

Many housekeepers think there is nothing to learn about the care of lamps, but if the little details here mentioned are adhered to there will be a great difference in the light. First, a lamp must be cleaned and filled every morning; the burners should be cleaned once a week, and the best way is to boil them in water to which Gold Dust Washing Powder has been added. Put a teaspoonful in a quart of water and boil ten minutes. The flues should be put in a pan of cold water and heated slowly until they fall, then take off and allow to cool gradually, this toughens the glass.

Why is Electric Light Best?

Because it is Healthy, Clean, Pure and Brilliant.
HEALTHY! It has no odor. Professor Thomson states one cubic foot of gas consumed as much oxygen as four adults.
CLEAN! It causes no discolorations of furnishings and decorations in homes.
SAFE! As electric bell work, no danger of suffocation.
CHEAP! By using a little care in turning off lights when not in use it is cheaper than any other illuminant.

WILL NOT BAR TREATY.

Argentine Convention Not Affected By Time Limit Expiring.

Washington, Feb. 8.—The fact that the period of time allowed for the ratification of the Argentine reciprocity treaty expires tomorrow will not in itself have any effect upon the fate of that convention. It was realized some time ago that the treaty would not be ratified within the allotted time, and the state department arranged to meet the difficulty by having the senate, in the event it should approve of the treaty, amend the clause providing for the exchange of ratifications by changing the date to some time in the spring.

This amendment would necessitate the

BRITISH RETREAT

They Abandon Molen Drift Under Fire and Retire Across the Tugela.

Buller's Column Pounded On Three Sides By the Boer Cannon.

Boer Head Langer, Ladysmith, Thursday, Feb. 8.—The British who were in possession of the kopje at Molen Drift abandoned it after a bombardment by Boer cannon this morning, and retired across the Tugela river to their former position.

A desultory cannonade is proceeding at the Tugela this morning, but otherwise everything is quiet.

London, Feb. 8.—It is said on reliable authority that Gen. Buller's dispatch announcing Monday's and Tuesday's movements was particularly hopeful and the news of another retirement is exceeding bitter to the British, and coming from the Boer source there is little disposition to discredit it. The news spread rapidly, and naturally disappointment was visible on all sides, although the long silence on the Upper Tugela had already aroused apprehension that Gen. Buller might have found it impossible to go forward, in which case he would have no option but to retreat the river.

London, Feb. 8, 2:35 p. m.—There is still no news of Gen. Buller's doing today or yesterday. A dispatch, dated Friday, Feb. 8, but probably written with the advanced lines Wednesday, Feb. 7, and sent to Pretoria by runner, says:

"The forces of the enemy are on both our flanks, and continue to renew our position extremely difficult to maintain."

Beyond the fact that Gen. Buller devoted Wednesday to bringing more artillery and troops across the Tugela, nothing is known of his movement, but that he had to make a tactical retreat is evident. It is still more patent that it is impossible for him to advance until the artillery has been enabled to take up forward positions for the purpose of silencing the Boer guns on both flanks.

Upon the length of time occupied in this operation depends the duration of Gen. Buller's military stay. It is reasonable to suppose that the guns and reinforcements were in position yesterday, and that another attempt to advance is now progressing, or at least that the bombardment preliminary to the actual movement of the troops is in progress. In the meanwhile news is awaited with great eagerness.

The critics now point out that the Boers are pushing through to the river, and that the British are in a very critical situation.

Another Pretoria dispatch says a Boer prisoner asserts that the burghers expected Gen. Buller to cross at Skloot's drift, and that he had no news of the being posted at Dorn Kloof to oppose such a passage, while on a captured hill there was only a few hundred Johannesburgers. This tends to increase the anxiety of those who believe that Gen. Buller has scarcely begun the serious part of his advance, though encouragement is gleaned from the news that the heavy naval guns, after repeated attempts, during which the angles rolled down the hill, have succeeded in reaching the summit of Swart Kop, whence they are doing excellent practice.

Gen. Hector MacDonald's retirement from Koodoosberg has created deep disappointment. But the operation was only intended as a sortie and its success or failure could scarcely have resulted in any material effect on the campaign.

To the daily rumor of the relief of Ladysmith was added last evening the report that Lord Roberts had positive information to that effect and that he had communicated it to various members of the house of lords during yesterday's session. Lord Roberts today said he had no news of the nature mentioned and that he did not go to the house of lords yesterday.

A rumor that Ladysmith had been relieved is again current today, but the war office authorities say they have no confirmation of the report.

Military attaches will leave tomorrow for the raising of thirty-seven new horse and field batteries with barracks on Salisbury plain and the addition of a new division of numerous regiments.

The dispatch from Koodoosberg Drift

MONEY WAS VERY EASY

Witness Steele Says That He Distributed Funds For Senator Clark.

HE HAD ONLY TO ASK

And the Funds Were Handed Out—Tierney on the Stand.

Washington, Feb. 8.—A. J. Steele was cross-examined in the Clark case today. He said he had participated in the full campaign of 1898 with Mr. Clark's friends. He had made a trip to Great Falls before the legislative session, and also one after the election. On the first trip he had taken \$100, which Mr. Davidson had given him, and on the second \$200. Mr. Davidson also had given him money for expenses incurred in other trips made throughout the state. Witness said that at that time he was a bankrupt, having failed in business. He received \$200 from Wellcome after the investigation by the grand jury.

Mr. Steele gave a partial list of persons to whom he had paid money in sums of \$100, they being persons working in the interest of Clark for the senate.

Referring to the visit made him at Helena by representative Gurr prior to the meeting of the legislature, Mr. Steele said, in reply to Senator Tierney, that he had received \$100 from Davidson and \$200 from Wellcome after the investigation by the grand jury.

GIVEN UP FOR LOST.

The Russian Dredger Devolant Thought to Have Foundered.

London, Feb. 8.—The new Russian steam dredger Devolant, which left the Clyde, Dec. 21, for Odessa, is overdue, and has been given up as lost. It is supposed that she foundered in the channel. There were nineteen persons on board the Devolant.

HAD A CLOSE CALL.

Ex-Justice Mitchell Has a Narrow Escape From Death.

St. Paul, Feb. 8.—Ex-Justice William Mitchell of the supreme court had a narrow escape from death by fire at an early hour today. He occupies apartments at the Aberdeen hotel in this city, and a little after 4 o'clock this morning was awakened by an uncomfortable sense of heat. He found his bed afire, and got out of the room just in time to escape serious injury.

The firemen confined the blaze to the rooms. The occupants of the hotel were in a state of excitement during the half hour that the firemen contended with the blaze. Judge Mitchell was not seriously burned.

IN CONGRESS.

But Very Little Business Was Transacted in Either House.

Washington, Feb. 8.—When the senate convened today, Mr. Allison presented the credentials of his colleague, John H. Gear, re-elected senator from Iowa for a term of six years, from March 4, 1901. The credentials were filed.

A laugh rippled over the senate, and Mr. Jones said he had not expected that advantage would be taken of the unanimous consent agreement to vote on the bill next Thursday to secure a vote at an earlier date.

Mr. Hearst disclaimed any such effort, calling attention to the fact that the pending question was an amendment offered by the finance committee.

Mr. Chandler, chairman for the committee on privileges and elections, said: "If the senator from Tennessee (Mr. Turley) were in his seat I would call up the Pennsylvania senatorial case. I have refrained from pressing the case, as I was informed all the time would be taken by the finance bill, but if the senate is not prepared to go on with the pending bill, I will ask the senator (Mr. Turley) to proceed with the Quay case."

The following bills were passed: To erect a public building at Deadwood, S. D., to cost \$200,000; appropriating \$500,000 for a monument to mark the site of the Fort Phil Kearney massacre, granting to the state of Kansas the abandoned Fort Jay military reservation of 7000 acres for the purpose of establishing western branches of the agricultural college and Kansas state normal school thereon, and for a public park.

No senator having indicated his desire to discuss the finance bill, the senate at 1:05 p. m. on motion of Mr. Aldrich, who said many senators desired to attend the exercises of Gen. Lawton, adjourned.

DOINGS IN THE HOUSE.

Sulzer Introduces Resolution to Reject Nicaragua Canal Treaty.

Washington, Feb. 8.—Upon the assembling of the house today it was agreed that when the house adjourns it be to meet on Monday next. Mr. Payne then moved that the house take a recess until 8 o'clock tonight. This motion was opposed by those interested in claims, this being the day set aside for the consideration of private bills.

Mr. Stims said it would be unfair to cut out the day session for the consideration of private claims and debate the evening session for the consideration of pending bills.

Mr. Payne said he made the motion because many members desired to attend the funeral of Gen. Lawton this afternoon, and the house would be without a quorum if the regular order was proceeded with.

Mr. Lord offered a way out of the tangle by moving to adjourn. Although the majority was in favor of the motion, upon a rising vote, when the roll was called, the motion was defeated by 88 to 60. The question then returned upon the motion of Mr. Payne, and it prevailed, 107 to 15. Accordingly at 1:20 p. m. the house recessed until 8 o'clock tonight, the evening session to be devoted to private pension bills.

Representative Sulzer introduced the following resolution: That in the judgment of the house of representatives the bill for the construction of the Nicaragua canal to be exclusively built, owned and controlled by the government of the United States, should be immediately passed and enacted into law regardless of the pending Hay-Pauncefote treaty now awaiting ratification in the United States senate, and that said treaty should be rejected because it contravenes the policy of the Monroe doctrine, surrenders American rights to British interests, and re-establishes the so-called Clayton-Bulwer treaty, long since lapsed and now null and void.

NELSON'S AMENDMENT.

Washington, Feb. 8.—Senator Nelson introduced an amendment to the currency bill permitting the organization of national banks in towns of 4000 inhabitants and over with a capitalization of \$25,000.

GLAD HAND TO ELIDA.

Washington, Feb. 8.—Acting Secretary Spaulding today instructed the treasury officer at Charleston, S. C., to extend the courtesies of the department to the Norwegian corvette Elida, which will call there about Feb. 18.

FUND FOR INJURED.

Washington, Feb. 8.—Secretary Long received a cable message this morning from Admiral Watson, dated at Hong Kong, Feb. 8, saying that the residents of Hong Kong have subscribed \$100 for the families of those killed and injured by the explosion on board the Wheeling. Admiral Watson says that all the wounded are doing well.

STEAMER ASHORE.

Cape Henry, Va., Feb. 8.—The weather bureau at Kitty Hawk reports the steamer Horizon ashore two miles south of Pamlico Hills, N. C. The crew of the Kitty Hawk and the Palisades life saving station have gone to her assistance.

TO HAVE A CONFAB

Conference of Republicans at Frankfort to Discuss Peace Treaty Probable.

ARREST OF SUSPECTS

Two Men Arrested on Suspicion of Complicity in Goebel's Murder.

Frankfort, Ky., Feb. 8.—It is likely that a general meeting of Republicans will be held here tomorrow to consider the peace agreement as adopted at Louisville. For the past week, Governor Taylor has been receiving telegrams from all parts of the state urging him to stand firm and not to surrender anything. The impression has become general among Republicans, who were not parties to the agreement, that the compact was a complete surrender to the Democrats. The gentleman who signed the agreement for the Republicans do not so consider it.

Governor Taylor has been in a very difficult position owing to the pressure brought to bear upon him from these outside sources and has not definitely decided to make any statement regarding his intention until he could convince the party that anything he might do would be for its good. He has, therefore, sent a large number of telegrams to the gentlemen who have for the last five days showered him with advice to be in Frankfort by Saturday morning. What his intentions are is not known and he will say nothing regarding them. It is announced, however, from a source a little more authoritative than the governor himself, that he desires to hear the objections they have to the agreement. In many cases, telegrams the governor has received have had from two to six signatures, and when such was the case the governor has asked the signers to come to Frankfort Saturday morning.

The two former suspects of complicity in the murder of Governor Goebel were arrested in a boarding house today. The names are Elias Jones, of Whiteley county, and Gotschalk, of Nelson county. The men are said to have spent in the executive building for a time an dthly will be kept in confinement until something more definite is known as to their whereabouts at the time of the assassination.

CLOTHED IN MYSTERY.

House of the London Legislature Holding Executive Sessions.

London, Ky., Feb. 8.—Representative Lewis, from Leslie county, left today for Frankfort on a telegraphic summons from Governor Taylor.

The house convened at 10:18. The roll call showed that seven members of the thirty-eight in the town were absent. Miss Ellen Payne, of London, was unanimously elected enrolling clerk. A motion was then made to go into executive session. The motion was carried by a vote of 100 to 0. The house went into executive session at 10:40. It was evident that the object of the session was unknown to a number, which indicated that the motion was not intended to be a surprise. The house adjourned at 10:40. It was evident that the object of the session was unknown to a number, which indicated that the motion was not intended to be a surprise.

It is rumored that warrants for the arrest of enough absent Democratic members of both houses to constitute a quorum will be issued today. Senator Cox said: "We will certainly have a quorum in the senate and a quorum in the house. Further than that I can't say."

The executive joint session ended at 12:45 o'clock. Senator Burham, in joint session, delivered a eulogy upon the death of former Senator J. Speed Smith, of Richmond, and presented resolutions of respect, which were adopted. A resolution was presented by Senator J. S. Taylor, of W. S. Taylor was elected governor, John Marshall was elected lieutenant governor, Caleb H. Powers, elected secretary of state, and the other Republican incumbents were elected to office, and that the results of the election should not be disregarded by compromise. The resolution was adopted and the house adjourned until tomorrow.

ALL AT LARGE YET.

None of the Democratic Legislators Have Been Arrested.

Louisville, Feb. 8.—The Democratic legislature met again today in pursuance of the plans adopted early in the week. In the senate twenty members, one more than a quorum, were present. Resolutions of respect to the memory of Governor Goebel were adopted and the senate adjourned until tomorrow.

In the house repeated roll calls failed to discover more than forty-nine members, less than a quorum. A recess until 3 o'clock was taken, the Democratic members asserting that a quorum of members to transact business are now in the city. The early hours of the morning were spent in hustling to secure the attendance of a quorum in both houses. The publication that warrants had been sworn out at Frankfort for the arrest of enough Democratic members to make a quorum for the legislature in session at London caused quite a flurry for a while, but the morning passed without any interference with the liberty of the Democratic lawmakers.

HEARING POSTPONED.

Georgetown, Ky., Feb. 8.—Governor Taylor was not represented when Judge Santrel called for a hearing proceedings here today. On request of Judge Prior, for the plaintiffs, the hearing was postponed until Tuesday next.

CALL TO ORGANIZE.

Washington, Feb. 8.—A meeting of the Democratic national congressional committee has been called for tomorrow night to elect a chairman and other officers, and for organization.

DECLINE IN GRAIN

Wheat Started Out a Shade Higher But Soon Turned Weak.

THE CABLES LOWER

Another Bearish Feature Was the Liberal Size of North-west Receipts.

Duluth Board of Trade, Feb. 8.—Although wheat started out at a slight advance this morning, the market soon turned weak and declined. The cause of the falling off in price was selling of wheat induced by lower cables, the Liverpool market reporting wheat quiet and bid lower. The Northwest receipts were also liberal and added to the bearish sentiment, with the result that after a brief rally, the market ruled weak during the entire session, closing far lower than yesterday here and 1/2¢ lower at Chicago for the May option.

Trading in futures was dull on the Duluth board. May wheat opened at 85¢, declined to 84¢, and then recovered to 84 1/2¢. Cash and May wheat both fell off 1/2¢ to 84¢, and then recovered to 84 1/2¢. Oats, barley and rye closed without change from yesterday. Following were the closing prices:

Some Changes Predicted in Police Department No Matter Who Is Mayor.

THE CITY CLERKSHIP

Two Republican Candidates Are Out—Attorney Richards May Be Kept.

Most of the city officials who hold appointive offices have so far recovered from the results of Tuesday's election that they are able to notice things again. Most of them are wondering whether they will begin packing up now or wait till the first Tuesday in March, when the new administration and Republican council goes into office. In the police department, particularly, a feeling of apprehension and anxiety prevails, and it is intimated very strongly that no matter how the contested majority election turns out, some of the men that have been occupying snug berths in the department for the past four years or more will have to look for a job shoveling snow, or some other occupation outside the city hall.

Among the city officials nearly all the present incumbents will be candidates to remain. City Clerk Cheede, this morning said that he was a candidate for re-election, and his two most prominent opponents are C. E. Richardson and Walter Thompson. Both are said to be strong favorites among the aldermen who will compose the new council, and a pretty three-cornered fight is looked for.

It is reported that William McKay, and J. K. Wightman are looking for honors in the city assessor's office. Mr. Wightman claims particular consideration from the Republicans for "throwing" the aldermanic fight in the Third ward.

One of the leading members of the Republican city committee is authority for the statement that no effort will be made to remove City Attorney Richards. For the office of assistant city attorney there is likely to be a number of candidates.

THE BALLOT BOX GUARD.

Had a Severe Nervous Shock During the Night.

Terrific excitement came very near shattering the nervous system of the ballot box guard in the city clerk's office at an early hour this morning. There was a flash, stronger than the fiercest play of jagged lightning in the tropics, and a great rattling of breaking glass, and clatter of tumbling ballot boxes. Then three desperate looking watchmen woke up, turned deathly pale, and instinctively reached for their guns. Weary under the weight of deep mystery with which their jobs are enshrouded, they had fallen asleep, and Detective Benson, entering the realm of dreamland, dreamed he was high mogul in an island far out in the Pacific ocean, where there were nothing but sunny skies, delicious air, repentant pirates, and lovely women waiting. Only one subject on the entire island showed a disposition to be obstinate, and in kicking him into line the detective accidentally upset a box of poker chips, which fell all over the floor with a clatter that the sleeping watchmen woke up under the impression that some person was trying to blow the vault open.

When the mistake was discovered great joy pervaded the room, and the watchmen played poker till morning. Aside from that little disturbance nothing of moment happened during the second night of the farce comedy continuing performance now on in the city clerk's office. When the vault was opened this morning the heavy steel lining was found to be in position, and there was not so much as a scratch on the varnish of the heavily barred steel doors. The dingy red ballot boxes were still piled up in regular order in the far end of the vault.

The guards last night and today are the same as the day and night previous. Part of the night the Republicans had three men on guard to the Democrats one, but after midnight there were only two Republicans. Policeman William O'Neil still looks like the investigator of the mayor and Detective Benson, Peter Novack and H. A. Lytle the interests of the Republican city committee during the night session. At 6 o'clock in the morning Officer John Link relieves Officer O'Neil, and at the same hour J. H. Cameron relieves the two guards of the Republican committee.

The keeping of guards over the vault day and night has been the occasion of much ridicule from men of all political parties all over the city. The vault in which the ballot boxes are deposited is acknowledged to be as strong as any vault in the city, and it is the exact duplicate of the vault in the city treasurer's office, which is directly over it. The combination is known but to four men in the city. They are City Clerk Cheede, Assistant City Clerk Zimmerman, City Stenographer Connelly and L. S. Frazer, the man who set the combination. The combination could be very easily changed, so that only one man in the city could know how to work it. Mr. Cheede even offered to have Mr. Frazer change the combination and keep the number himself.

Failed to Prosecute.

For a time last night a very large type of the crimson lady from the colored district of St. Croix, completely filled a narrow cell in the women's department, at police headquarters. Yesterday afternoon a woodsman who had stopped off here for a few hours on his way to the woods and the woman was dazed by her beauty, murmured, her thick lips and her sultry smile. He tried to make an impression on the small crystallized medium that served her for a heart and his impressioned ecstasy cost him his life. He accused the woman of stealing it, and then like a blind frog, he fell overboard and left town. The police held the woman all day, but he found out that he was not against her and were then compelled to let her go.

Silberstein & Bondy Company

Suit to Clear Title.

Gertrude H. Bates has begun suit against the A. E. Johnson company to clear her title to a large amount of land in this county from the cloud raised by judgments secured by the company against one D. M. White by the defendant company. Some time ago the property was transferred from W. Bates to D. M. White and by him to the plaintiff. It is alleged that while the legal title was in White he made no claim to it at any time, and was not its owner. Judgments were secured against White by the defendant, and the suit to clear the title from the apparent claim of the company by virtue of its claims against White, John Jensen, Jr., is the attorney.

Elevator Company Incorporated.

Articles of incorporation of the Hasea Elevator company, empowered to handle grain and hay, lease or build one or more elevators, were filed this morning in the office of the register of deeds. The principal place of business of the company is to be Duluth. The capital stock is \$200,000 and the limit of indebtedness is \$100,000. The incorporators are James M. Jenks, of Chicago, and Elson S. Woodworth and William O. Timmerman, of Minneapolis.

Dropped to Twenty Below.

The prediction of Forecaster Richardson to the effect that last night would be very cold, and that the thermometer would drop pretty low, was well founded, for this morning, at 7 o'clock, it registered 19 degrees below, and a little later dropped to 20 below.

More people suffered from cold yesterday morning than did this morning, because there was very little wind today. For tomorrow a little warmer weather is expected.

Valentine Day Feb. 14.

Wonderful improvement has been made in fancy valentines this season. The new designs are very artistic and handsome. The best assortment in the city is at J. W. Nelson's, 5 East Superior street.

INDIAN ELOQUENCE.

A native Indian hunter of Bengal recently made the following unique address in court, says the New York Tribune. "My learned friend, with me, I stand under the shoes of my client, and only seek to place my bone of contention clearly in your honor's eye. My learned friend, merely, and vainly, runs amuck upon the sheet anchors of my case. My client is a widow, your honor; a poor chap, with one post-mortem son; a widow, not able to eat more than one meal a day or to look after a man; so my poor client has not such physique or mind as to be able to assault the luscious complaint. Yet she has been deprived of some of her more valuable leather—i. e., the leather of her nose. My learned friend has said that there is on the side of his client a respectable witness—namely, a pleader; and since this witness is independent, therefore he should be believed. But, your honor, with your honor's vast experience, is pleased enough to observe that truthfulness is not so plentiful as blackberries in this country; and I am sorry to say—though this witness is a man of my own feathers—that there are in my profession black sheep of every complexion, and some of them do not always speak gospel truth. Until the witness explains what has become of my client's nose leather he cannot be believed. He cannot be allowed to raise a castle in the air by besting upon a bush. So, trusting in that admission of justice, on which the sun never sets, I close my case."

PRO-BOER MEETING

Large Crowd Expected at the Sympathetic Meeting at the Armory.

ORATORS ARE COMING

Chicago, St. Paul and Minneapolis to Be Represented Among the Speakers.

Continuous campaigning and the occasional race of an oratorical Long Tom will mark the pro-Boer mass meeting at the Armory this evening at 8 o'clock. The trend of sympathy which extends throughout the United States, is particularly strong in this city and tonight an immense crowd of people are expected to clasp up and down the snowy slopes leading to the Armory.

Oratory will be dispensed with princely generosity and the local speakers will be reinforced by one of Chicago's leading orators and speakers, Hon. J. M. Cannon. Hon. Moses E. Clapp, of St. Paul, who is one of those who have been foremost in championing the cause of the Boers in Minnesota will be another speaker. Mr. Clapp is well known to many Duluth people and in 1892 when he was in Duluth in the organization and building of the Duluth, Missabe & Northern Railroad was almost a resident of Duluth for some time. Duluth sympathizers with the cause will be glad to hear him. Another speaker will be Hon. Thomas J. Kane, of Minneapolis, who is also said to be a very fine speaker.

The chairman of the meeting will be J. W. Reynolds. There will be an exceptionally large meeting in connection with the meeting in which Miss Julia Platonoff will sing, as will Franz Schultz, the Concordia Quartet and others, and Platonoff's complete orchestra will be in attendance. The meeting is free.

BISHOP MCGOLDRICK'S TALK.

Tells of His Sojourn in Ireland--Comments on Boer War.

Catholic Association hall was well filled last evening to hear Bishop McGoldrick give his second lecture on his European trip. The entertainment was given under the auspices of the ladies of the cathedral parish, who have been giving social boxes a month during the winter. The bishop told of his sojourn in Ireland last year. The speaker related in a very interesting manner his impressions made on a tour in visiting Ireland and described the beautiful scenery for which Ireland is famous in history, song and story. He told of the many beautiful scenes which he had seen and of the many beautiful people whom he had met. He said that he had seen the Boer War and that he had seen the Boer War and that he had seen the Boer War.

THE EGG MARKET.

Does Not Respond to Cold Weather as Was Expected.

The cold weather has not had the anticipated effect of checking the receipts of fresh country eggs and the egg market continues without material change. The situation is the number of eggs that are offered on the market. The market is not as active as it was last week. The market is not as active as it was last week. AMUSEMENTS.

"A CONTENTED WOMAN."

Tomorrow evening Hoyt's play, "A Contented Woman," will be given at the Lyceum. The piece is in four acts.

Laundry Workers' Ball.

The Laundry Workers' union gave its annual ball last evening in Old Bohemia hall. There was a large attendance and the dance in every way was a great success. A gold medal was awarded to Miss Pineda and J. H. McGilvray, as the best dancers on the floor.

Attended the Ball.

A number of Duluth telegraph operators have returned from St. Paul, where they attended the annual ball of the Commercial and Railway Telegraphers' association on Wednesday evening.

Three Foes of Health

Henry Jones, of Zenas, Ind., says:
"My sufferings were almost unbearable, and only persons having been afflicted with this rare and dreaded combination of diseases can imagine what they were like. I was confined to my bed almost all the time. My doctor finally acknowledged that neither he nor any one else could cure me. I would not give up, so tried different medicines, and finally began the use of Dr. Williams' Pink Pills for Pale People. The first box of pills helped me some, and I took some more. The second box began to produce the desired result, and before I had finished the fourth box I was at last a cured man. That was last March, and I have not been troubled with these diseases since."—From *Banner Plain Dealer, North Vernon, Ind.*

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, neuritis, neuralgia, sciatica, nervous headache, the after-effects of influenza, palpitation of the heart, pale and mallow complexion, all forms of weakness either in male or female.

Dr. Williams' Pink Pills for Pale People are never sold by the dozen or hundred, but always in packages. At all druggists, or direct from the Dr. Williams Medicine Company, Schenectady, N. Y., 50 cents per box, 6 boxes \$5.00.

SCHROEDER GOVERNOR

Commander Schroeder Practically Decided on For Governor of Tutuila.

PAGO PAGO PERFECT

The Harbor Is Found to Need Little Outlay For Improvement.

Washington, Feb. 10.—It has been practically decided by the secretary of the navy to appoint Commander George W. Schroeder to be the first naval governor of the Samoan island of Tutuila. It is expected that Capt. Tilly of the Albatross, the station ship at Pago Pago, will look after the United States interests in Tutuila until the regular governor's arrival. It is understood that Capt. Tilly has already notified the native inhabitants of the annexation of the island. The work of establishing a sailing station has been vigorously pushed, and now that a governor is to be appointed, the department will take steps to have a suitable residence erected for his occupation. In addition to the coal sheds and machinery buildings already under construction at Pago Pago.

For a time at least the department will maintain one of the auxiliary vessels as a station ship at Pago Pago, although as Capt. Tilly is to come in in the sailing ship, some other vessel than the Albatross may be assigned to this duty.

The naval officers have just completed a survey of Pago Pago harbor. It is shown that the harbor is deep, and beyond placing two buoys on its many rocks, there is no occasion to expend any money for improvements.

COMPLETION OVER CANAL.

The Government May Have To Reimburse Nicaragua Concessionists.

Washington, Feb. 10.—State department officials admit that the existence of two canal routes, one through Nicaragua and one through Panama, would be a great advantage to the United States. It is understood that the department is now considering the possibility of purchasing the Nicaragua canal concessionists, who have been granted a 20-year lease on the canal.

Duluth's Best Tailor.

William Mies, of the Duluth Art Tailoring company, left this afternoon on his annual trip to New York. Mr. Mies will spend some time in the Eastern markets selecting a stock of wools for spring and summer that he says will not be exceeded by any other establishment in the Northwest. His business the past season has been phenomenal, and he will spare no efforts to sustain the reputation of being Duluth's best tailor.

Fashions For the Fair

The Combined Use of Lace Emphasized on a Robert Gown Described By Felix Fournery.

Clinging Skirt Form Still A Decline of Buttons and Buckles.

Paris, Jan. 31.—(Special to The Herald.)—The first styles of the early spring show no abatement in the use of lace, and though the moderate prices at which many beautiful and effective machine-made laces can be obtained, their popularity does not seem to prevent the exclusive couturiere and milliners from favoring them. Charming effects are obtained by the combinations of the lace with per grades of lace with some of the novel devices of the season. One model by Robert serves as an illustration to this observation, and in it can be recognized several old friends in artistic new forms. There is the satin-faced cloth, for instance, which has survived several seasons as its own in softness, elegant finish and draping qualities has not yet been equalled for street wear.

The graceful apron yoke of the skirt which, with its elongated and pointed front always added to the figure, is formed of pastel green satin-faced cloth, a soft emerald green shade which will find much favor this spring. The yoke is adjusted closely to the figure by means of numerous narrow gorges, the seams of which are ornamented with rows of pastel green stitching. Additional fullness at the back is supplied by a single box pleat stitched tightly

above but opening gracefully below the yoke. A serpentine flounce of grayish gauze, of a shade which is chosen carefully to harmonize with the color of the cloth forms a flare, which, while making very long, shows no sweep at the back. The whole skirt is mounted on a lining of pastel green tulle, and is finished on the inside of the hem with a delicate use of the same silk.

The bodice shows the same characteristics as the skirt. It is lined with a light foundation of pastel green tulle, and the yoke is intersected by stitched seams. The lines of the skirt and bodice are carefully drawn down the front. The lower part of the bodice is made of gray gauze, which is stretched without seams over the back and front, but is shaped and stitched into the underarm gorges of the skirt. It closes with a row of small buttons, which are fastened over the left arm and is finished over the bust and at the back by an oval band of rich guipure edging, embellished by a row of silver thread and small silver spangles. The high draped collar faces with pastel green silk matches the band as do the pointed cuffs, arranged on the long light sleeves of pastel green satin cloth.

The street gowns this variety of embroidery is cut out of cloth and finished around the edge with a fine silk cord or machine stitching, and silk or satin of the same color forms the foundation underneath, while for evening gowns and fancy waists it is made of silk, or guipure, and artistically embellished with gold, silver and gold threads and fine beads. Embroideries of every kind seem to be in evidence among the new fashions for summer gowns, especially on the laces for waist dresses. While among the novel devices, embroidered in a deep pattern on one side, and sometimes finished with a narrow ruffled edge, are the embroidered laces in pale colors, and, especially, and everything in the line of lace and guipure are to have a part in the scheme of decoration. The craze for guipure applique is exemplified again among the robe dresses of velvet, and white silk cord is the finish.

GUYLER'S COCOA CHOCOLATES

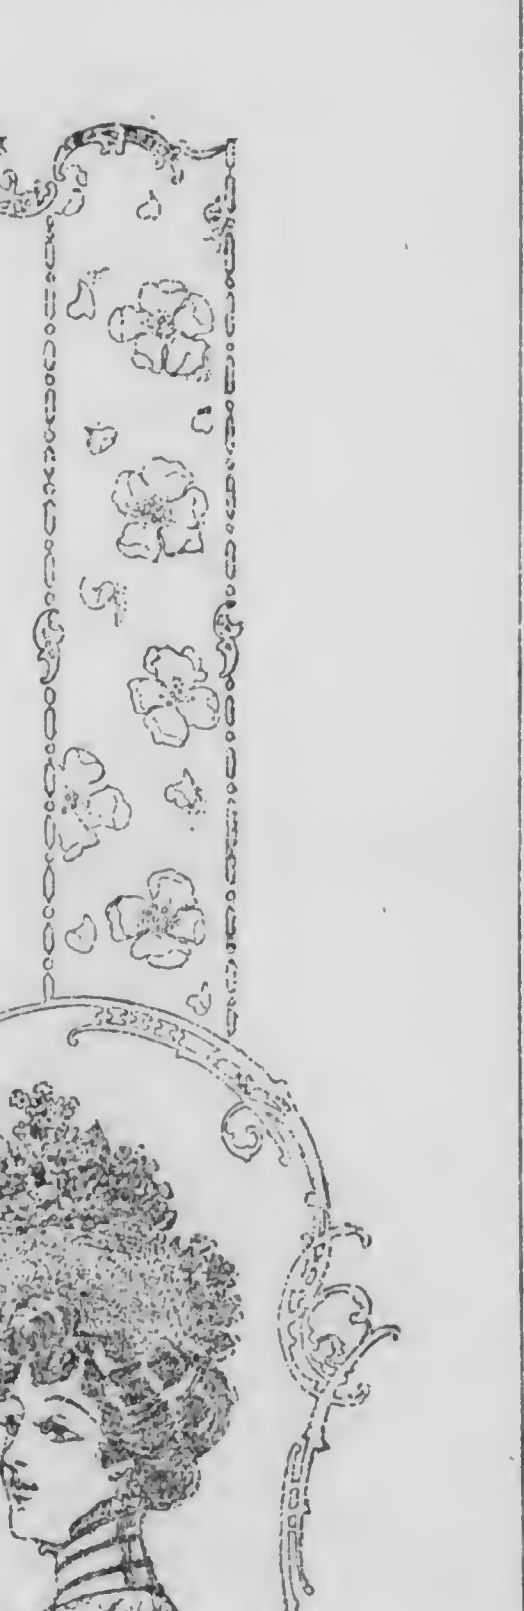

Victrol Spring model of Mark's rice straw, with velvet border and "poussé" with a lace and jetted lace.

Embroideries worked out in fine beads, both jet and steel, and fine beads on net are the latest fancy, in preference to the time-to-the-moment, which have had their day.

Other tendencies in the prospective spring fashions are that the predominating colors worn will be very light, whatever the material of your gown may be; the made of using lace and cloth in combination will continue through the coming season; and the separate waists will continue to bloom as before, with many and varied new charms. Even the new shirt waists, or the waists which

ever and bid fair to remain with us for some time to come. They are of black lace over white, and of cream lace over white or colored linings, and are a feature of these waists now, and no doubt some new mode will develop and then, when later, to add to the money value, not to the beauty. Beaded, not spangled, and in very many cases, the new waists, made of white satin with long transparent sleeves and delicate neck. The latest shape for the bodice is a simple, straight line, and is considered especially pretty by young women.

A noticeable feature of all the latest models in waists is the plain, straight line of the bodice itself. The belt is arranged to form a decided dip, and the bodice is cut in a simple, straight line, and is considered especially pretty by young women.

DESIGNER'S NOTE.

Light Colors Will Predominate During the Season.

One thing which is predicted, or rather established, for the spring season of fashion is the lavish use of guipure, embroidery in guipure designs both in cloth and silk, says the New York Sun. It is much less expensive than when it first appeared in the autumn, and consequently everything which can be wrought out on this idea will be popular in spring.

In fact, every fancy which fashion originates is tentatively set forth for approval, and as such, it is well launched by the leaders in dress, it blossoms out in every direction.

One thing which is predicted, or rather established, for the spring season of fashion is the lavish use of guipure, embroidery in guipure designs both in cloth and silk, says the New York Sun. It is much less expensive than when it first appeared in the autumn, and consequently everything which can be wrought out on this idea will be popular in spring.

In fact, every fancy which fashion originates is tentatively set forth for approval, and as such, it is well launched by the leaders in dress, it blossoms out in every direction.

hemstitched, striped with lace insertion, decorated in various ways, are constantly swelling the list, which seemed to be more than complete in the early part of the season. All the pretty, dainty colors come in these, fancy silks, and while they are expensive in one sense, they are cheap in another, as the trimming and material are combined. Very pretty waists are made of alternate rows of wash ribbon an inch wide and culture lace insertion of the same width. This is arranged in bias effect in the front or straight up and down, as you like, and the effect with pale blue or mauve ribbon is very pretty. Black velvet ribbon is sometimes used with black insertion, and very effectively, too, if made up over a white lining.

COMMON SENSE TALK WITH WOMEN.

If a person is ill and needs a medicine is it not wise to get one that has stood the test of time and has hundreds of thousands of cures to its credit?

A great many women who are ill try everything they hear of in the way of medicine, and this experimenting with unknown drugs is a constant menace to their already impaired health.

This is very unwise, for there are remedies which are no experiments and have been known years and years to be doing only good.

Take for instance.

Lydia E. Pinkham's Vegetable Compound.

For thirty years its record has been an unbroken chain of success. No medicine for female ills the world has ever known has such a record for cures.

It seems so strange that some people will take medicines about which they really know nothing, some of which might be, and are, really harmful; when on the other hand it is easily proved that over one million women have been restored to health by Lydia E. Pinkham's Vegetable Compound.

We have published in the newspapers of the United States more genuine testimonial letters than have ever been published in the interest of any other medicine.

We have thousands like the following addressed to Mrs. Pinkham:

Monthly Suffering Backache and Bearing-down Pains Always Cured by Lydia E. Pinkham's Vegetable Compound.

"I suffered untold agony every month, could get no relief until I tried your medicine. Your letter of advice and a few bottles of Lydia E. Pinkham's Vegetable Compound have made me the happiest woman alive. I shall bless you as long as I live."—Miss Joie Saul, Dover, Mich.

"Four years ago I had almost given up hope of ever being well again. I was afflicted with those dreadful headache spells which would sometimes last three or four days. Also had backache, bearing-down pains, leucorrhoea, dizziness, and terrible pains in the monthly periods confining me to my bed. After reading so many testimonials for your medicine, I concluded to try it. I began to pick up after taking the first bottle, and have continued to gain rapidly, and now feel like a different woman. I can recommend Lydia E. Pinkham's Vegetable Compound in highest terms to all sick women."—Miss Rosa Holden, 126 W. Cleveland Ave., Canton, O.

Another Case of Kidney, Womb and Bladder Trouble Cured by Lydia E. Pinkham's Vegetable Compound.

"DEAR FRIEND—Two years ago I had child-birth fever and womb trouble in its worst form. For eight months after birth of babe I was not able to sit up. Doctors treated me, but with no help. I had bearing-down pains, burning in stomach, kidney and bladder trouble, and my back was so stiff and sore. The right ovary was badly affected and everything late distressed me, and there was a bad discharge.

I was confined to my bed when I wrote to you for advice and followed your directions faithfully, taking Lydia E. Pinkham's Vegetable Compound, Liver Pills, and using the Wash, and am now able to do the most of my housework. I believe I should have died if it had not been for your Compound. I hope this letter may be the result of benefiting some other suffering woman. I recommended your Compound to every one."—Mrs. Mary Vaughan, Trimble, Pulaski Co., Ky.
